MEMORANDUM FOR: Deputy Director for Science and Technology

SUBJECT : Activity Approval for Acquisition of Plotting Equipment

REFERENCE : DD/S&T Instruction 230-1, dated 16 Dec 63

1. The purpose of this memorandum is to request your approval of the procurement action stated in paragraph 4.

2. Attachments B and C are copies of memoranda from the DD/FMSAC and the AD for ELINT which requested OCS to investigate available plotting hardware, problems of interface with our present ADP equipment, and to provide appropriate inhouse capabilities to support FMSAC and OEL requirements.

3. This problem has now been studied in detail by OCS. Attachment A is an OCS paper which discusses requirements for the plotter equipment, recommends the acquisition of specific hardware, and provides specifications. The purchase price of the recommended equipment is approximately \$27,000. This amount is appropriately covered in OCS financial plans for Fiscal Year 1965. There is no requirement for additional manpower to operate this equipment.

4. Your approval is required for OCS to purchase, for installation in the CIA Computer Center, the off-line digital incremental plotting equipment specified in the attached memorandum.
